FORTRESS
SECURITY SERVICES

WEBSITE PROPOSAL · 22 OCTOBER 2026

A MODERN WEBSITE AND RECRUITMENT PLATFORM FOR FORTRESS

A complete rebuild of fortress.tt with online applications, an applicant portal and a recruitment back office – built to run on your existing Hostinger hosting.

Prepared for
Fortress Security Services Ltd
8 Desaine Street, St. Augustine, Trinidad & Tobago

Prepared by
Keron Lewis
Web & application developer

EXECUTIVE SUMMARY

WHY REBUILD NOW

The current fortress.tt was last updated in 2017. It is not mobile-friendly, it lists no vacancies, and hiring runs through Facebook posters that ask candidates to email **recruitment@fortress.tt**. Every application then has to be tracked by hand, interviews are arranged by phone, and candidates have no way to see where they stand.

This proposal delivers three things in one system: a modern public website that presents Fortress as the professional, certified firm it is; a careers section with online applications that feed a drag-and-drop hiring pipeline for your recruitment officers; and an applicant portal where candidates track progress, book their interview and keep their CV current – with automatic email and in-portal notifications at every step.

24
screens designed, built and tested

10
services with photography and detail pages

5
minutes to apply online, from any phone

0
new servers – runs on Hostinger PHP 8.3

WHAT FORTRESS GAINS

FOR CLIENTS & TENDERS

- Credibility: IFPO, STOW and Ministry registration front and centre
- Clear service catalogue with quote requests routed to your inbox
- Mobile-first, fast, secure (HTTPS) and search-engine ready

FOR RECRUITMENT

- One pipeline for every applicant instead of email threads
- Interview slots that candidates book themselves
- Templated emails, ratings, notes and CSV reporting

FOR CANDIDATES

- Apply in five minutes with CV upload and instant reference
- Portal to track status, book interviews and update CVs
- Notifications by email and in the portal

FOR MANAGEMENT

- Dashboard: new applicants, hires, vacancies, enquiries
- Role-based access for recruiters and administrators
- Website content editable without a developer

AT A GLANCE

WHAT IS INCLUDED

AREA	FEATURES
Public website	Responsive on phones, tablets and desktops · Licensed photography and video · Search-engine ready (sitemap, structured data) · Quote-request form with alerts · Vehicle-tracking customer link · Editable services and settings
Recruitment	Online applications with CV upload · Drag-and-drop hiring pipeline · Interview slots and self-booking · Templated candidate emails · Ratings, notes and recruiter assignment · CSV export and dashboard reporting
Applicant portal	Application status tracking · Interview booking or viewing · CV storage and updates · Email and in-portal notifications · Password reset · Automatic linking of past applications
Platform	Laravel 13 on PHP 8.3 · Runs on Hostinger shared hosting (no extra servers) · Private CV storage outside the web root · Role-based staff access · HTTPS enforced, forms rate-limited · 53 automated tests

HOW THE PIECES CONNECT

A candidate finds a vacancy on the **careers page** (or from a Facebook post linking to it), applies online and receives a reference by email. The application appears instantly in the **recruitment back office**, where a recruiter screens it, rates it and moves it through the pipeline. When the candidate is invited to interview they log in to the **applicant portal** and choose a published slot – or see the date the recruiter set. Acceptance, rejection and every message are recorded on the candidate's timeline and sent by email. Website quote requests follow the same path into a simple enquiry CRM.

CONTENT AND IMAGERY

All copy was sourced from the current fortress.tt pages (services, training programme, benefits, requirements, offices) and validated against the Fortress Facebook page and business directory listings. The seven starter vacancies mirror the roles advertised on Facebook in 2026 (security drivers, baton officers for the East-West Corridor and Point Lisas, Tobago officers, EMT officers, social media manager, web developer). Photography and the hero video are licensed stock imagery under a standard licence; they can be replaced with Fortress's own photography at any time.

PART 1

THE PUBLIC WEBSITE

A modern, mobile-first replacement for fortress.tt. Every page is built from the content on the current site and your Facebook page, re-written for clarity and search engines, with licensed photography and a looping control-room video in the hero.

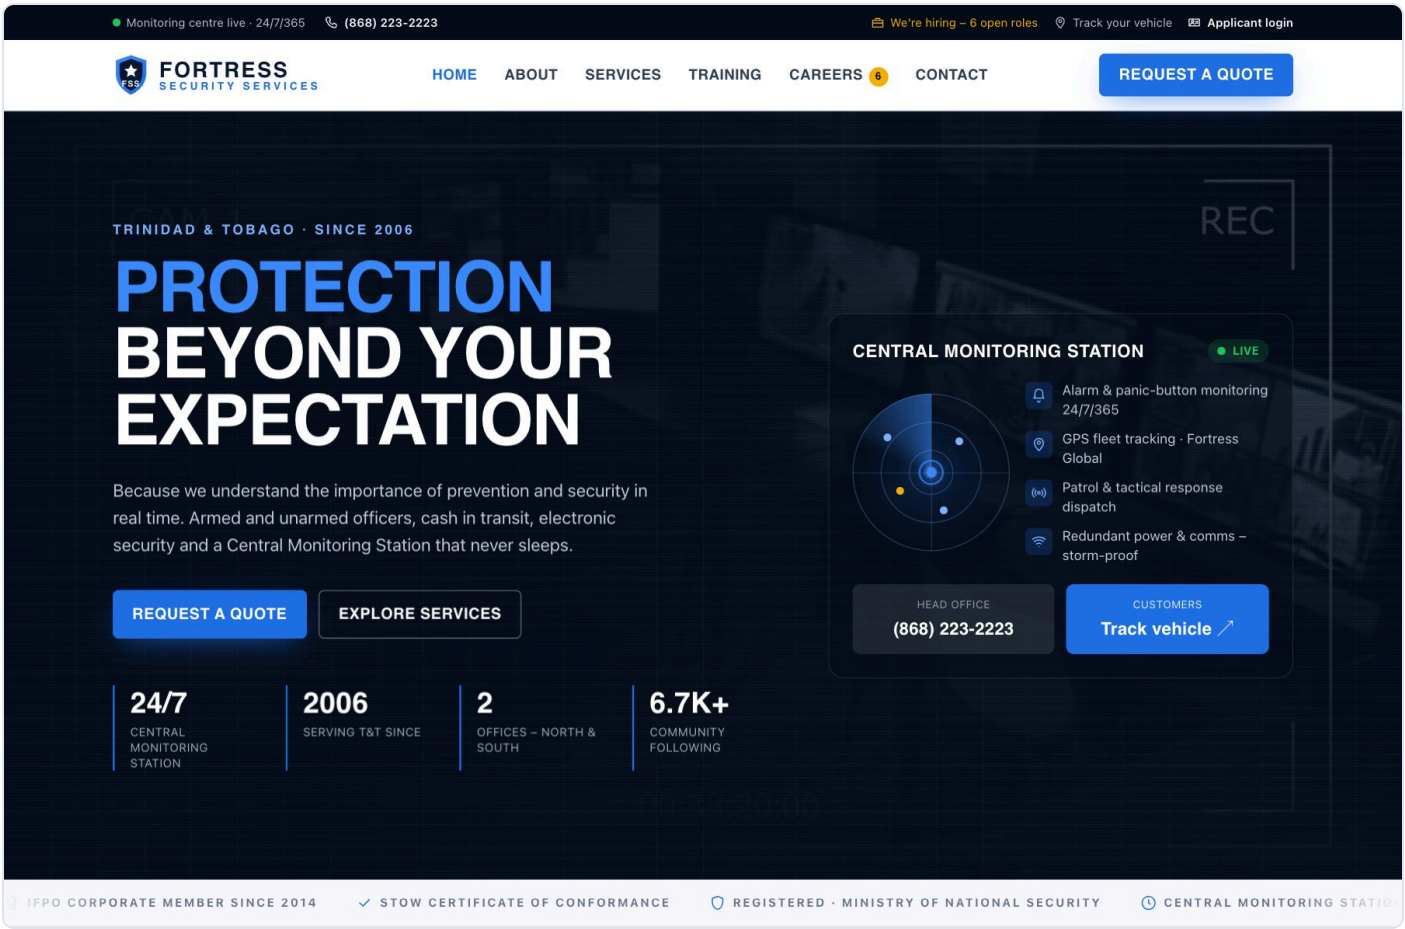

1. Home page
2. About Fortress
3. Services catalogue
4. Service detail page
5. Officer training
6. Careers
7. Job posting
8. Online application form
9. Contact & quotes

THE PUBLIC WEBSITE

HOME PAGE

/

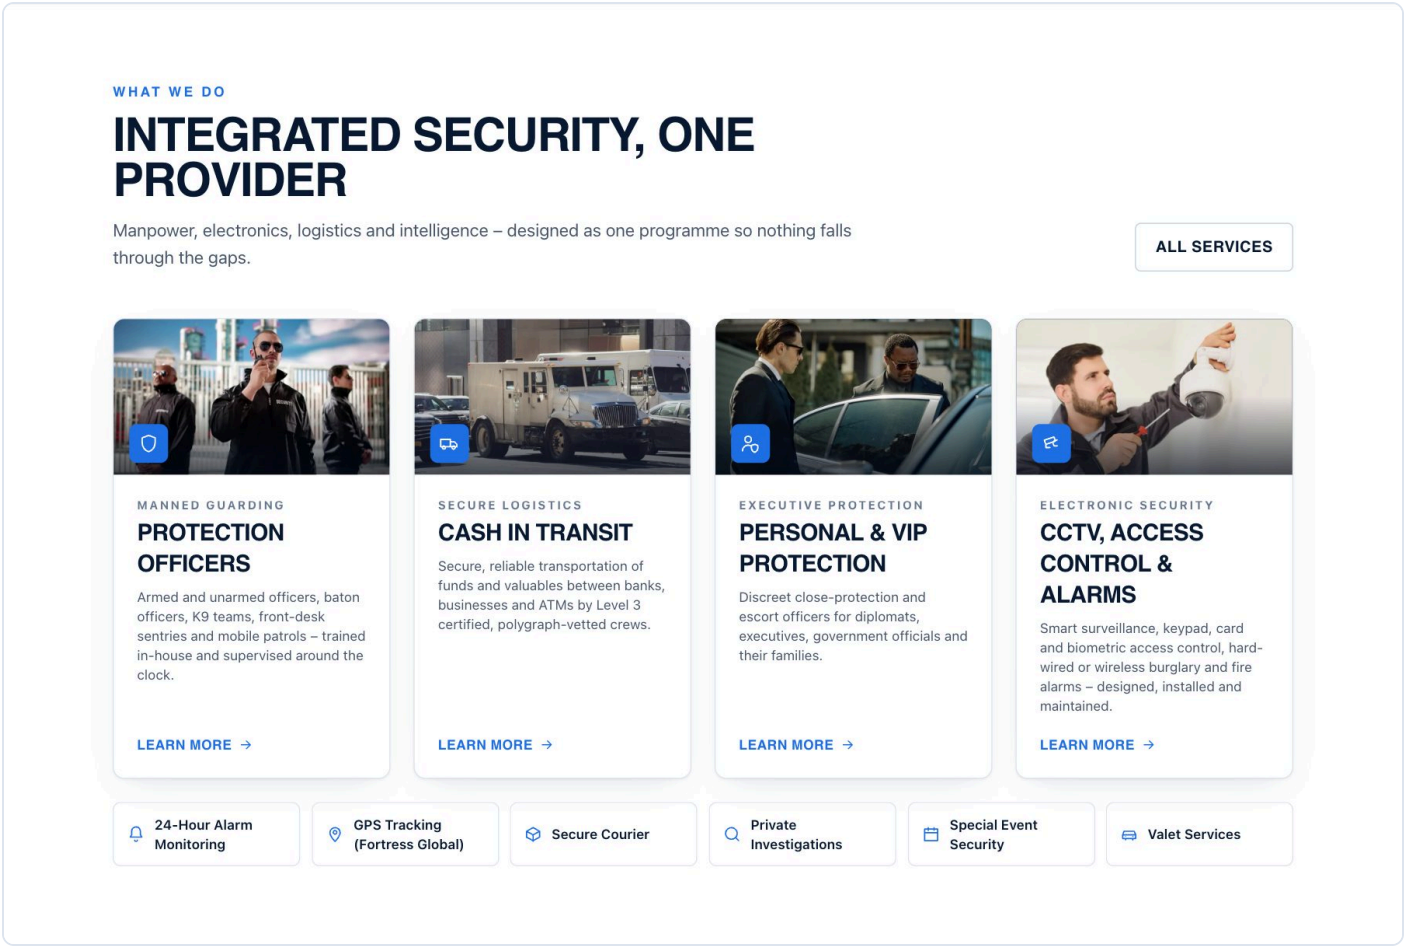

- Looping monitoring-room video hero with an animated radar graphic and a kinetic headline (Protection / Prevention / Response / Vigilance).
- Live credentials strip: IFPO member, STOW certified, Ministry of National Security registration.
- Featured services with photography, "Why Fortress" with the training story and counters, industries served, and current vacancies pulled live from the recruitment system.
- Click-to-call and the customer vehicle-tracking link are always one tap away.

Slice 1 of 5 · Hero: looping control-room video behind the kinetic headline, live monitoring card with the animated radar, click-to-call and vehicle tracking, and the four headline statistics.

Sections shown: Protection beyond your expectation

HOME PAGE

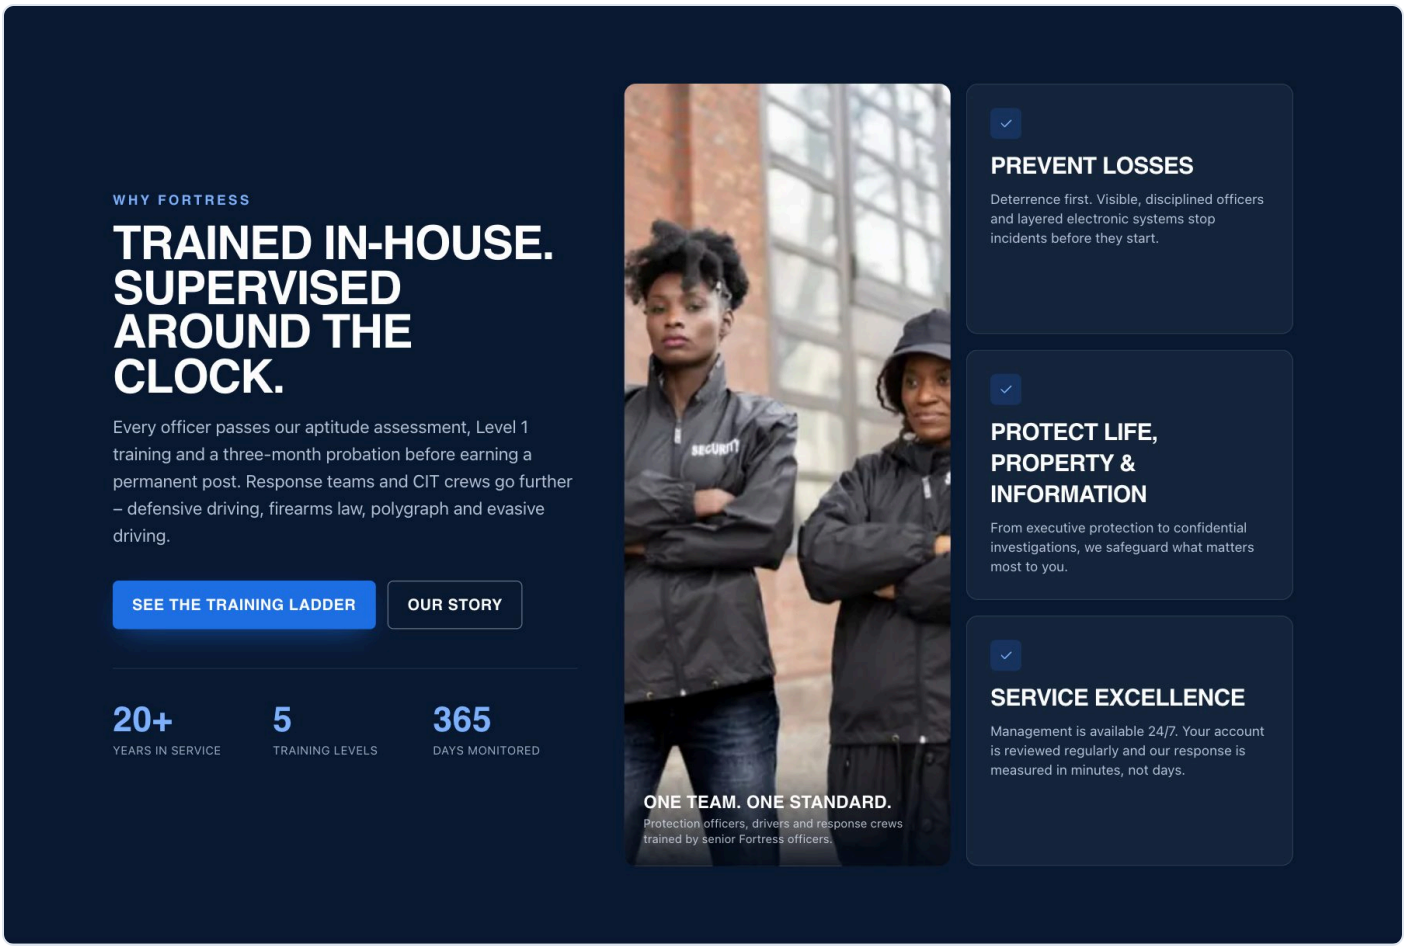

Slice 2 of 5 · Credentials marquee and the featured services grid – protection officers, cash in transit, VIP protection and electronic security – with the remaining services as quick links.

Sections shown: Integrated security, one provider · Protection Officers · Cash in Transit · Personal & VIP Protection

HOME PAGE

/

Slice 3 of 5 · "Why Fortress": the in-house training story with team photography, the three service commitments and animated counters for years in service, training levels and days monitored.

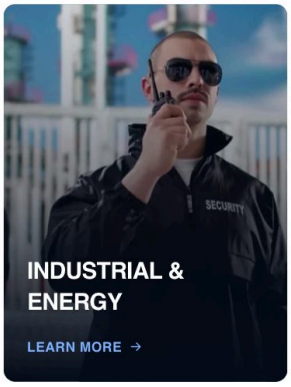

Sections shown: Trained in-house. Supervised around the clock. · Prevent losses · Protect life, property & information · Service excellence

ABOUT FORTRESS

/about

MISSION

INNOVATIVE SOLUTIONS. SUPERIOR SERVICE.

To provide our clients with a network of innovative security solutions and technology for a safe environment and more effective integrated security systems, delivered with quality outcomes and consistently superior service.

VISION

THE CARIBBEAN'S LEADING PROVIDER

To become the leading security services provider in Trinidad & Tobago and the wider Caribbean, offering security and technology solutions that build client satisfaction, loyalty and economic value.

Slice 2 of 4 · Company timeline from the 2005 registration as Personnel Protection Services to today's island-wide coverage, with the industrial-team photograph.

Sections shown: Innovative solutions. Superior service. · The Caribbean's leading provider

ABOUT FORTRESS

/about

OUR STORY

TWO DECADES OF GROWTH

2005
REGISTERED
Registered under the Ministry of National Security as Personnel Protection Services Ltd.

2006
OPERATIONS BEGIN
Founded in response to rising crime, with a focus on trained, professional protection officers.

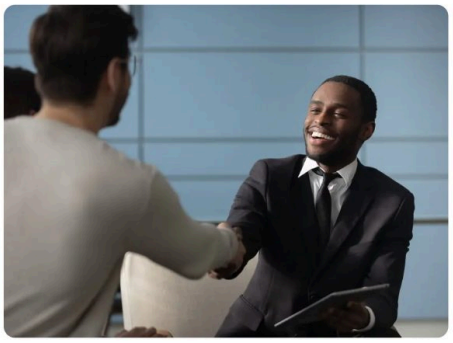

2014
IFPO CERTIFICATION
Corporate Membership with the International Foundation for Protection Officers.

2016
STOW CERTIFIED
Certificate of Conformance opens the door to energy-sector and industrial estate contracts.

Today
ISLAND-WIDE COVERAGE
Head office in St. Augustine, South branch in Marabella and teams deployed from Point Lisas to Tobago.

OUR COMMITMENTS

WHAT EVERY CLIENT CAN EXPECT

PREVENT LOSSES
Deterrence first. Visible, disciplined officers and layered electronic systems stop incidents before they start.

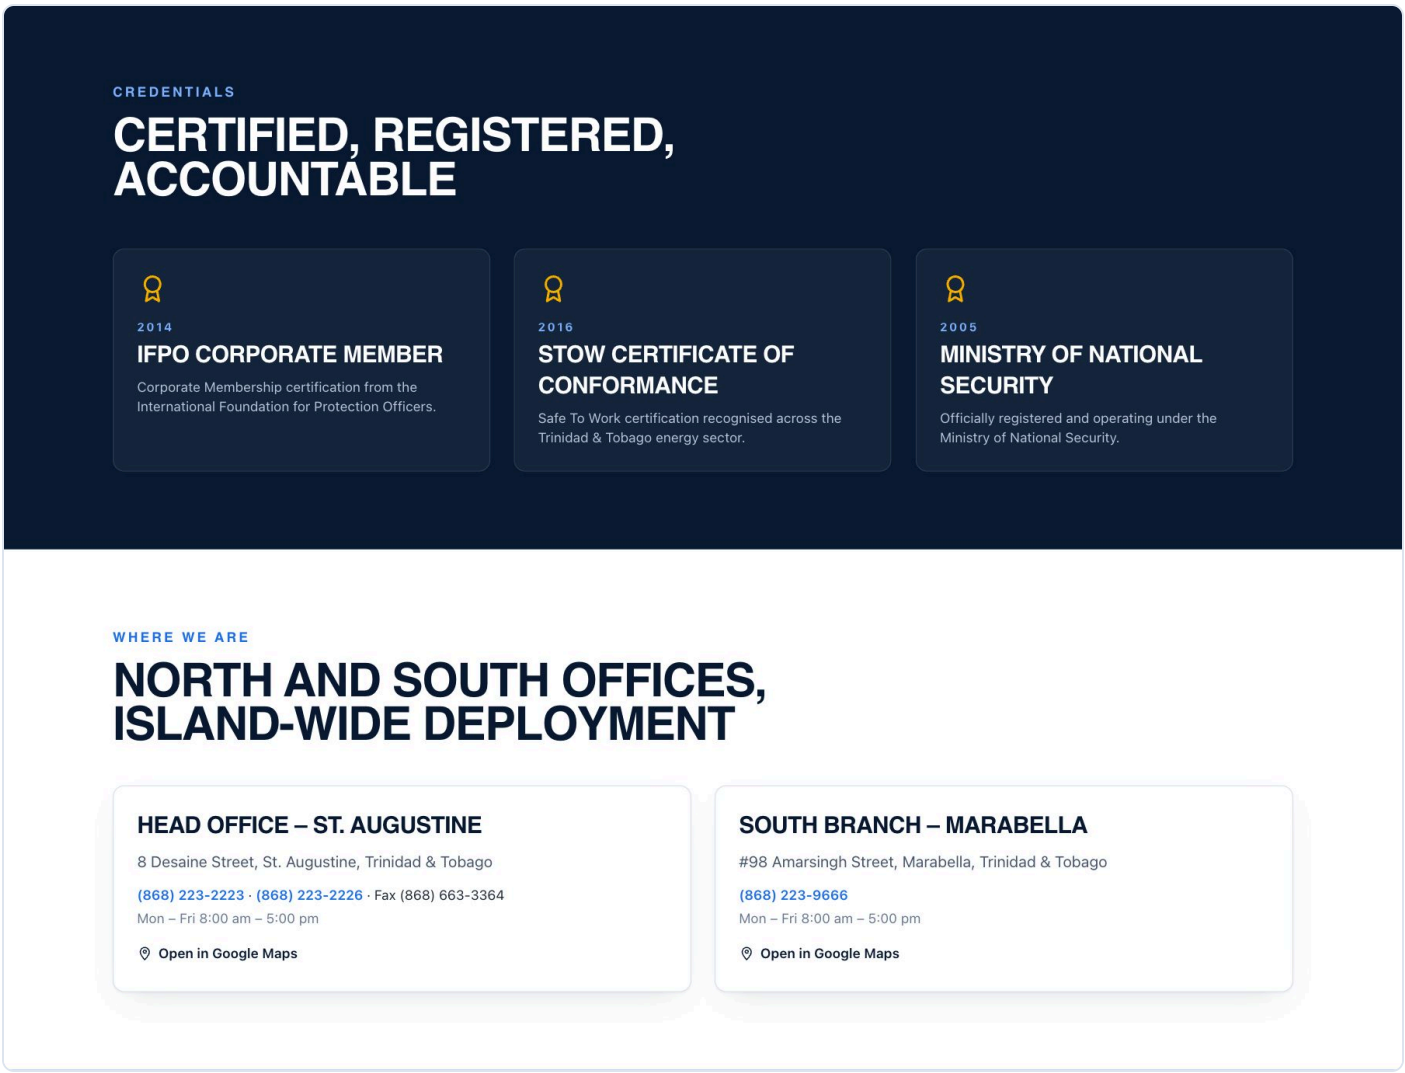

PROTECT LIFE, PROPERTY & INFORMATION
From executive protection to confidential investigations, we safeguard what matters most to you.

SERVICE EXCELLENCE
Management is available 24/7. Your account is reviewed regularly and our response is measured in minutes, not days.

Slice 3 of 4 · Client commitments – prevent losses, protect life, property and information, service excellence – alongside the consultation photograph.

Sections shown: Two decades of growth · Registered · Operations begin · IFPO certification · What every client can expect

ABOUT FORTRESS

Slice 4 of 4 · Certifications (IFPO, STOW, Ministry of National Security) and the St. Augustine and Marabella offices with map links.

FOUNDATION SECURITY OFFICER

Delivered by senior officers. Graduates receive a uniform kit and serve a three-month probation before progressing to Level 2.

- Duties of a security officer
- Public relations & dress code
- Patrols and fixed posts
- Diary & report writing
- Use of force
- Observation & patrol techniques
- Safety & fire prevention

3

LEVEL 2

ADVANCED OFFICER

Builds the judgement needed for commercial and industrial sites.

- Traffic & crowd control
- Strikes and labour relations
- Security investigations
- Employee dishonesty
- Legal aspects of security
- Stress management
- Human relations

4

RESPONSE

RESPONSE OFFICER

For mobile patrol, tactical response and VIP assignments.

- Advanced crowd control
- Explosives & bomb threats
- Hazardous materials
- Terrorism & VIP protection
- Defensive driving
- Crisis intervention
- Firearms legislation
- Control tactics & arrest
- Executive protection

5

LEVEL 3

CASH IN TRANSIT

Additional vetting: credit check, ongoing background checks, polygraph and a valid driver's permit.

- CIT procedures
- Loading in unsecured areas
- Site security
- Tactical weapons
- Evasive driving
- Close combat
- Client confidentiality

Slice 2 of 3 · The training ladder as a timeline: aptitude assessment, Level 1 and Level 2 with their topics.

JOB POSTING

/careers/security-drivers

Drive and support armoured and escort vehicles for our Cash in Transit and courier operations. Defensive-driving certified, Class 4+ permit holders aged 25 and over.

Join the Fortress Security Services team and be part of a professional team committed to safety, integrity and excellence.

Security Drivers operate our CIT and escort fleet along the East-West Corridor, working with a crew commander and our 24-hour monitoring centre on every movement.

KEY RESPONSIBILITIES

- Safely operate armoured and escort vehicles on planned routes
- Carry out pre-trip inspections and report defects
- Maintain radio contact with the Central Monitoring Station
- Follow CIT loading, unloading and site-security procedures
- Complete daily movement logs and incident reports

MINIMUM REQUIREMENTS

- ✓ Must be 25 years and older
- ✓ Minimum of five (5) years driving experience
- ✓ Valid Class 4 (or higher) driver's permit
- ✓ Must be able to drive manual-transmission vehicles
- ✓ Defensive Driving Certificate
- ✓ Valid Police Certificate of Character (issued within the last 6 months)
- ✓ Must be physically fit and capable of performing all assigned duties
- ✓ Must be punctual, disciplined and professional
- ✓ Ability to work flexible hours, including weekends and public holidays
- ✓ Must successfully pass a pre-employment drug screening

BENEFITS

Competitive wages · Permanent employment · In-house training & certification · Paid sick leave · Health plan & life insurance · Workmen's compensation · Pension plan · Vacation & casual leave · Annual bonus package (profit sharing) · Double time on public holidays · Assistance with personal development

Before you apply

Have your Police Certificate of Character (issued within the last 6 months), national ID , driver's permit and a CV (PDF or Word) ready. In-house background checks are conducted on all applicants.

APPLY FOR THIS ROLE

Takes about 5 minutes. You'll get a reference number by email.

THE RECRUITMENT & ADMINISTRATION BACK OFFICE

APPLICANT PROFILE

/admin/applications/57

- Qualifications at a glance, cover note and CV download.
- Decision panel: start review, interview stage, accept, hire, reject. Set or let the candidate self-book the interview.
- Templated emails (interview invitation, document request, offer, regret) that can move the stage automatically, plus a full notes and activity timeline.
- Portal status shows whether the candidate has registered and their current CV.

Applicant profile: qualifications grid, cover note and CV, templated email composer, notes and activity timeline, the Manage panel, decision buttons and portal status.

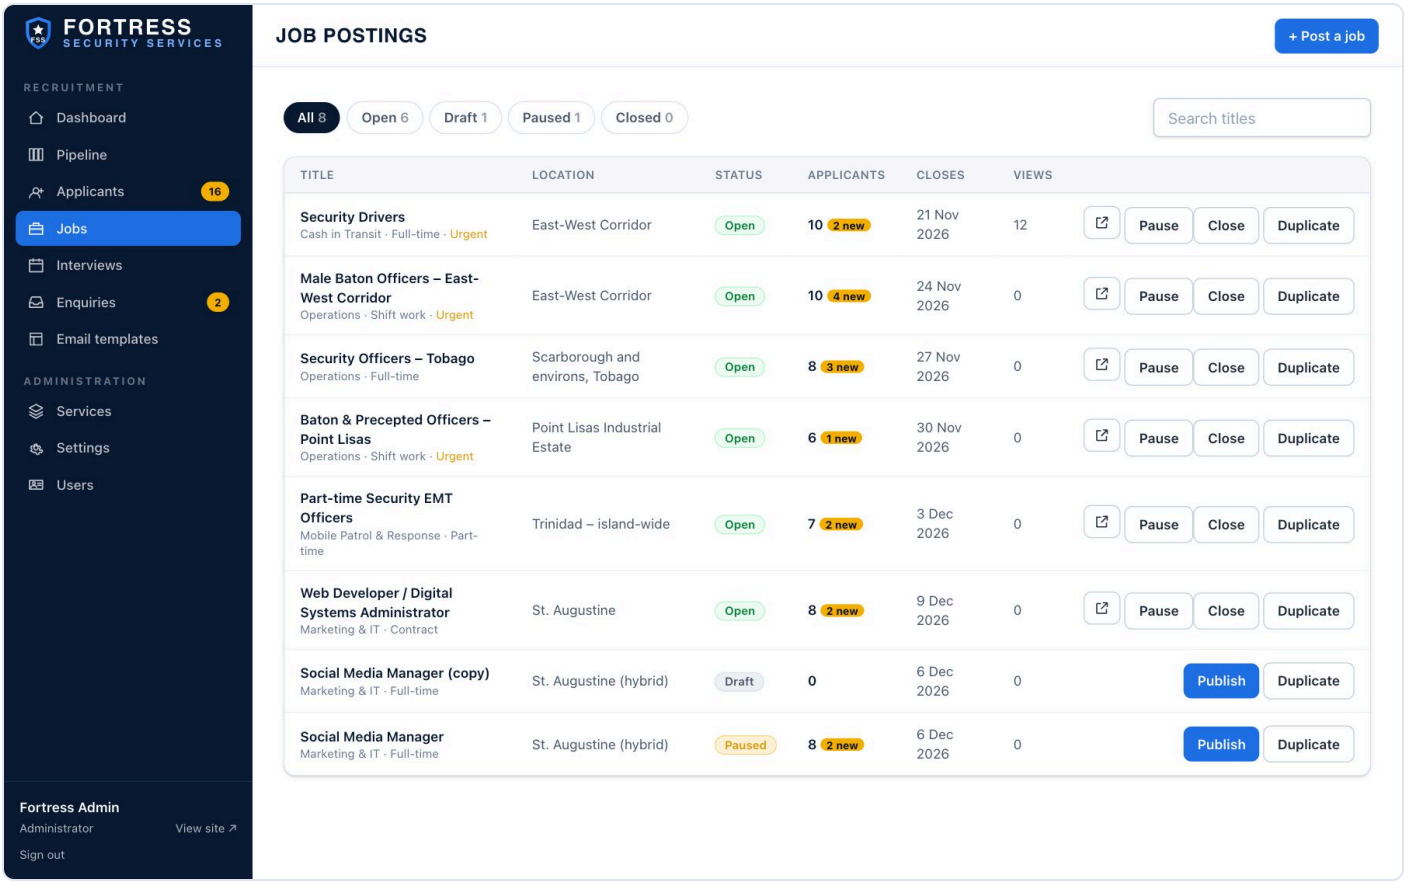

Sections shown: Test Applicant · Qualifications & experience · Email applicant · Notes & activity

THE RECRUITMENT & ADMINISTRATION BACK OFFICE

JOB POSTINGS

/admin/jobs

- Open, pause, close or duplicate vacancies; closing dates auto-expire listings.
- Applicant counts with new-applicant badges per job.

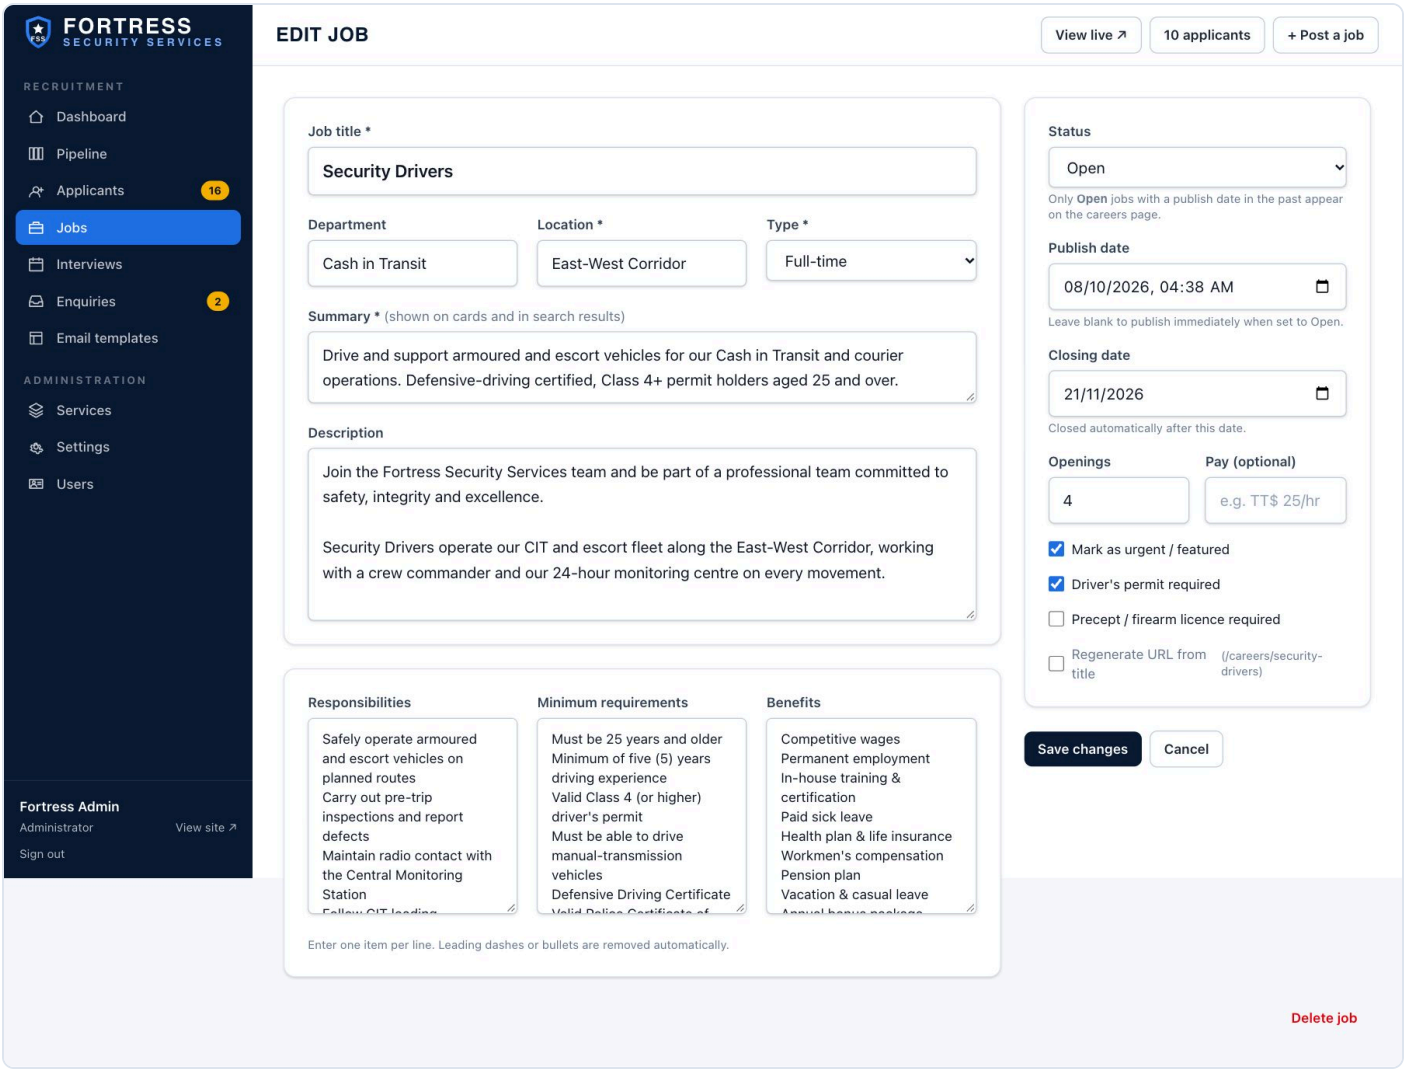

Job postings with status filters, applicant counts, new-applicant badges and the publish, pause, close and duplicate actions.

THE RECRUITMENT & ADMINISTRATION BACK OFFICE

JOB EDITOR

/admin/jobs/security-drivers/edit

- Title, department, location, type, summary, description, responsibilities, requirements and benefits.
- Urgent flag, permit/precept requirements, publish scheduling and closing date.

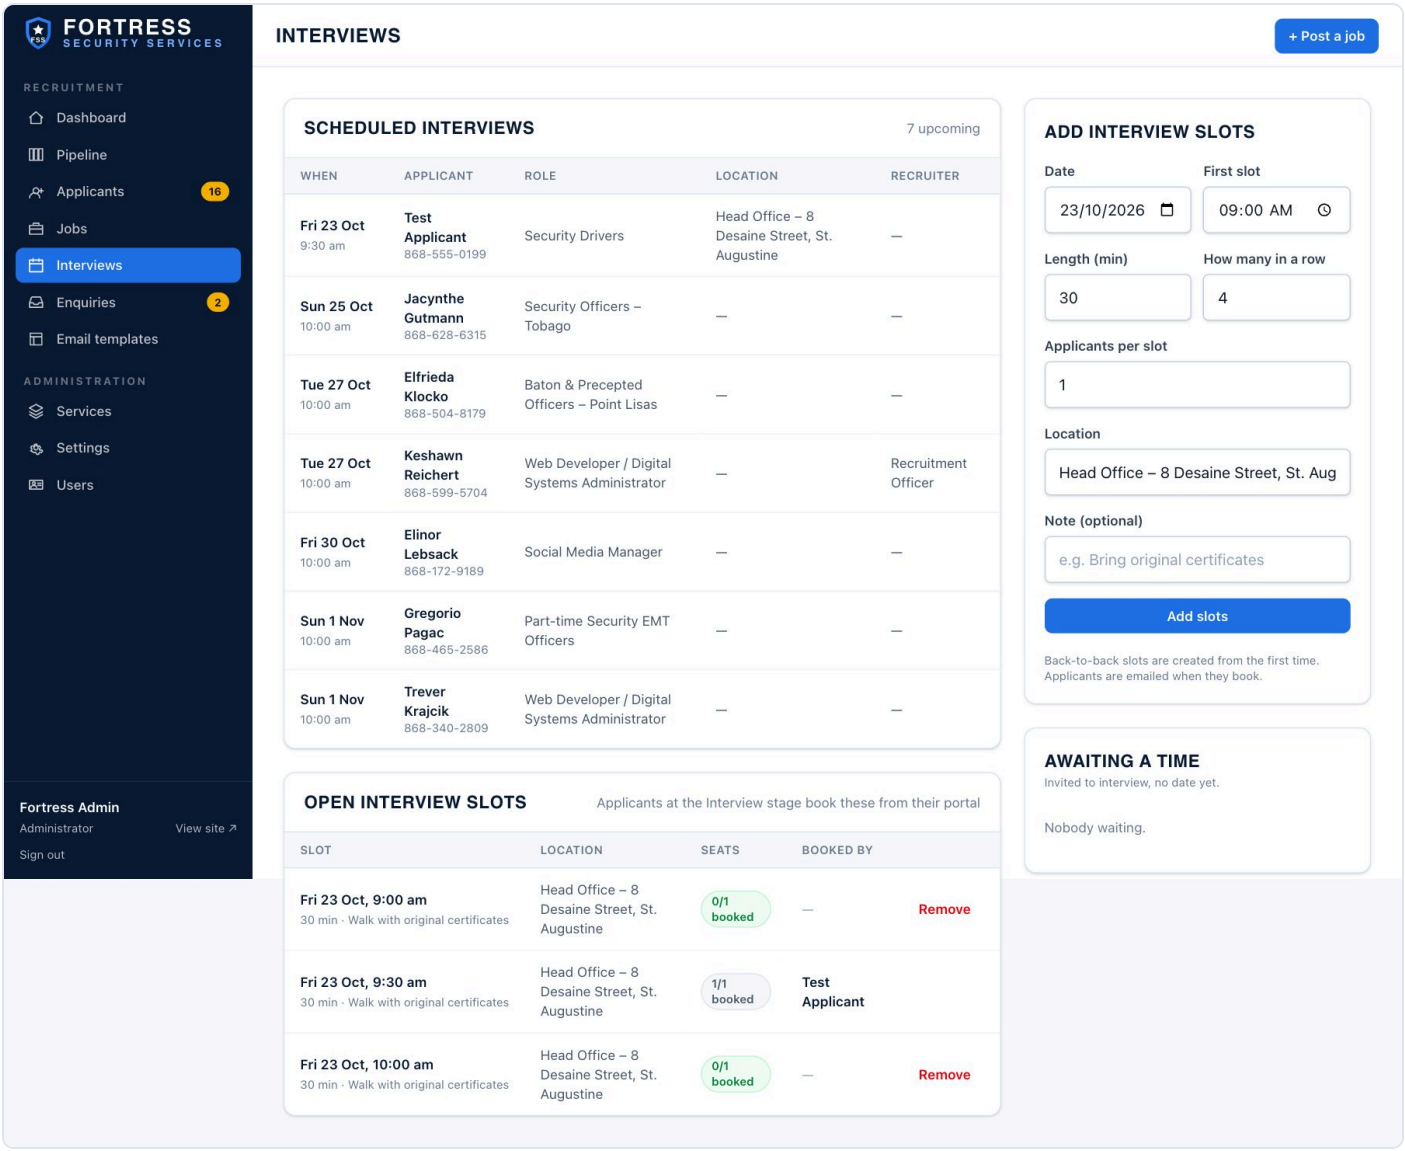

Job editor: title, department, location, type, summary, description, lists for responsibilities, requirements and benefits, plus status, dates and flags.

THE RECRUITMENT & ADMINISTRATION BACK OFFICE

INTERVIEWS & SLOTS

/admin/interviews

- Publish interview slots (date, first time, length, how many in a row, seats, location) in one click.
- See who has booked, who is scheduled and who is still waiting for a time.

Interviews: scheduled interviews, open self-booking slots with bookings, the slot generator and applicants still waiting for a time.

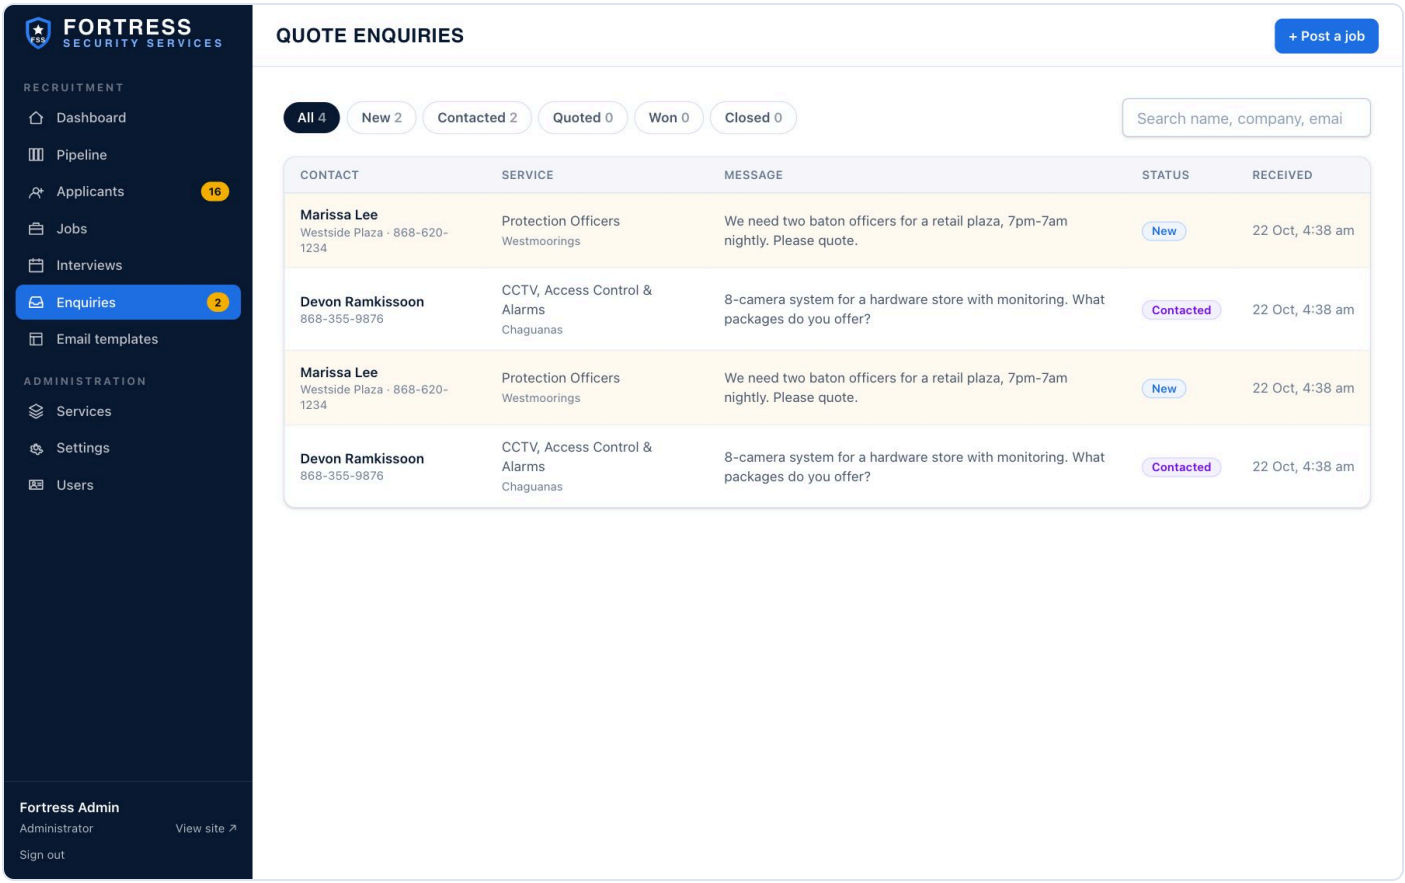

Sections shown: Scheduled interviews · Open interview slots · Add interview slots · Awaiting a time

THE RECRUITMENT & ADMINISTRATION BACK OFFICE

QUOTE ENQUIRIES (CRM)

/admin/enquiries

- Website quote requests with status (new, contacted, quoted, won, closed), owner and internal notes.

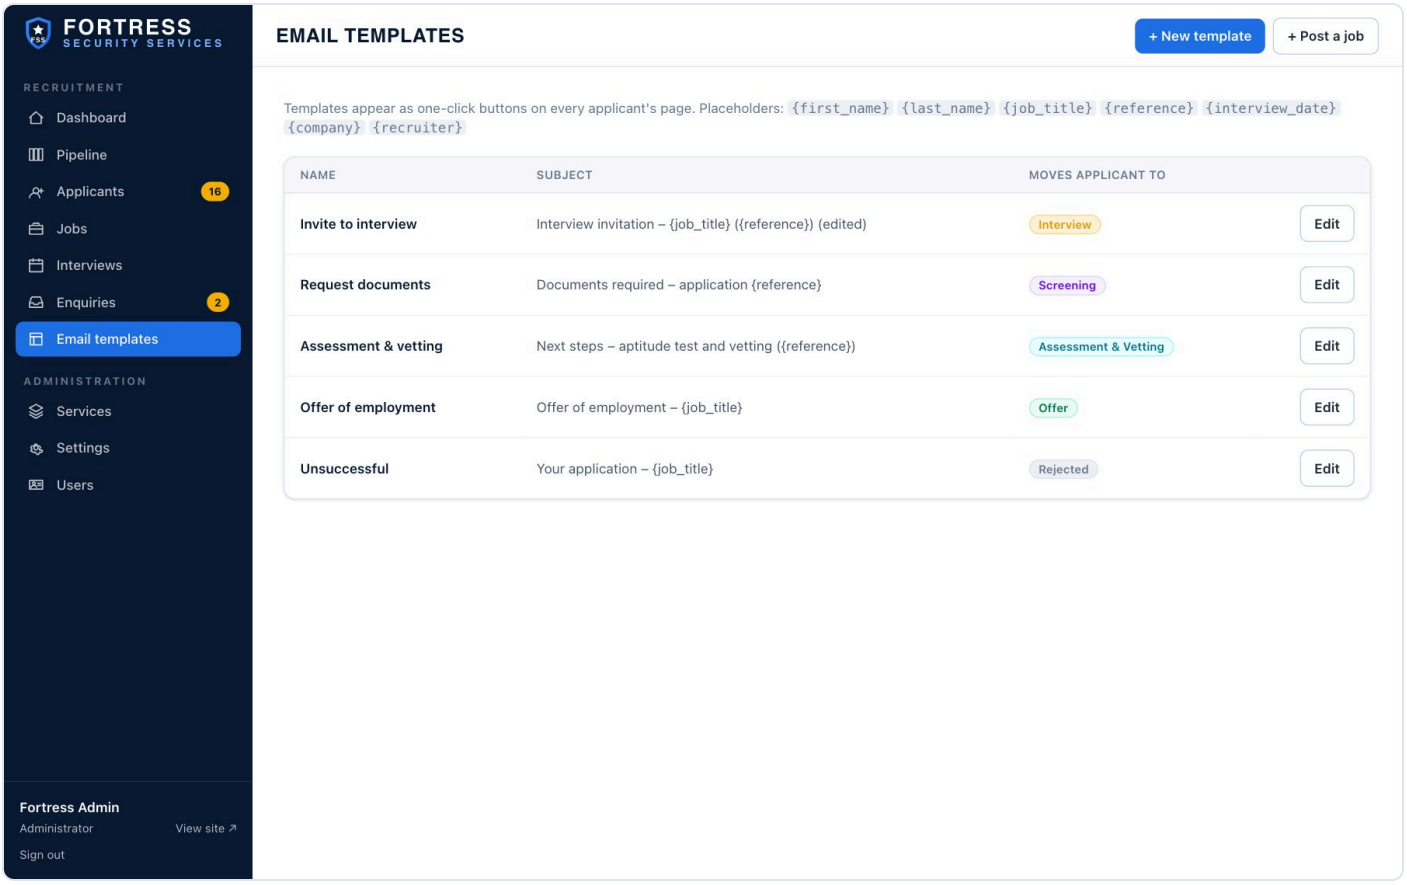

Quote-enquiry CRM with status tabs and search.

THE RECRUITMENT & ADMINISTRATION BACK OFFICE

EMAIL TEMPLATES

/admin/templates

- Edit the wording of every candidate email; placeholders fill in names, roles, references and interview dates.

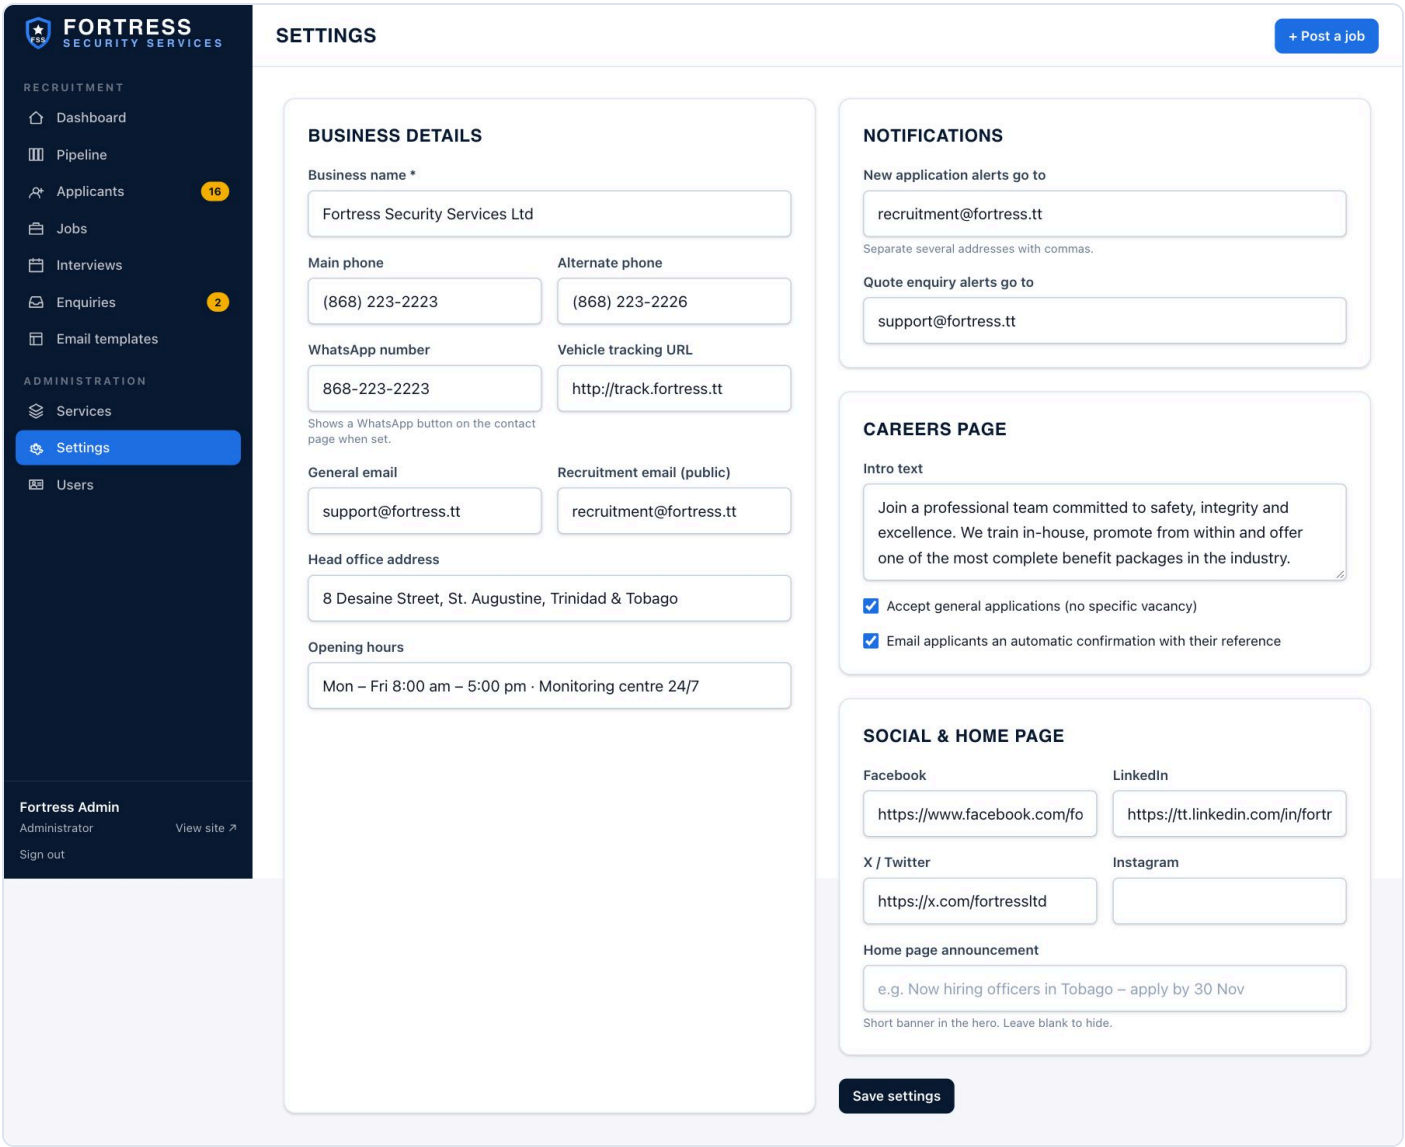

Email templates with the placeholders each one can use and the stage it moves the applicant to.

THE RECRUITMENT & ADMINISTRATION BACK OFFICE

SITE SETTINGS

/admin/settings

- Phone numbers, emails, WhatsApp, social links, notification addresses, careers page intro, home-page announcement banner.
- Switch general applications and automatic confirmations on or off.

Site settings: business details, notification addresses, careers page options, social links and the home-page announcement.

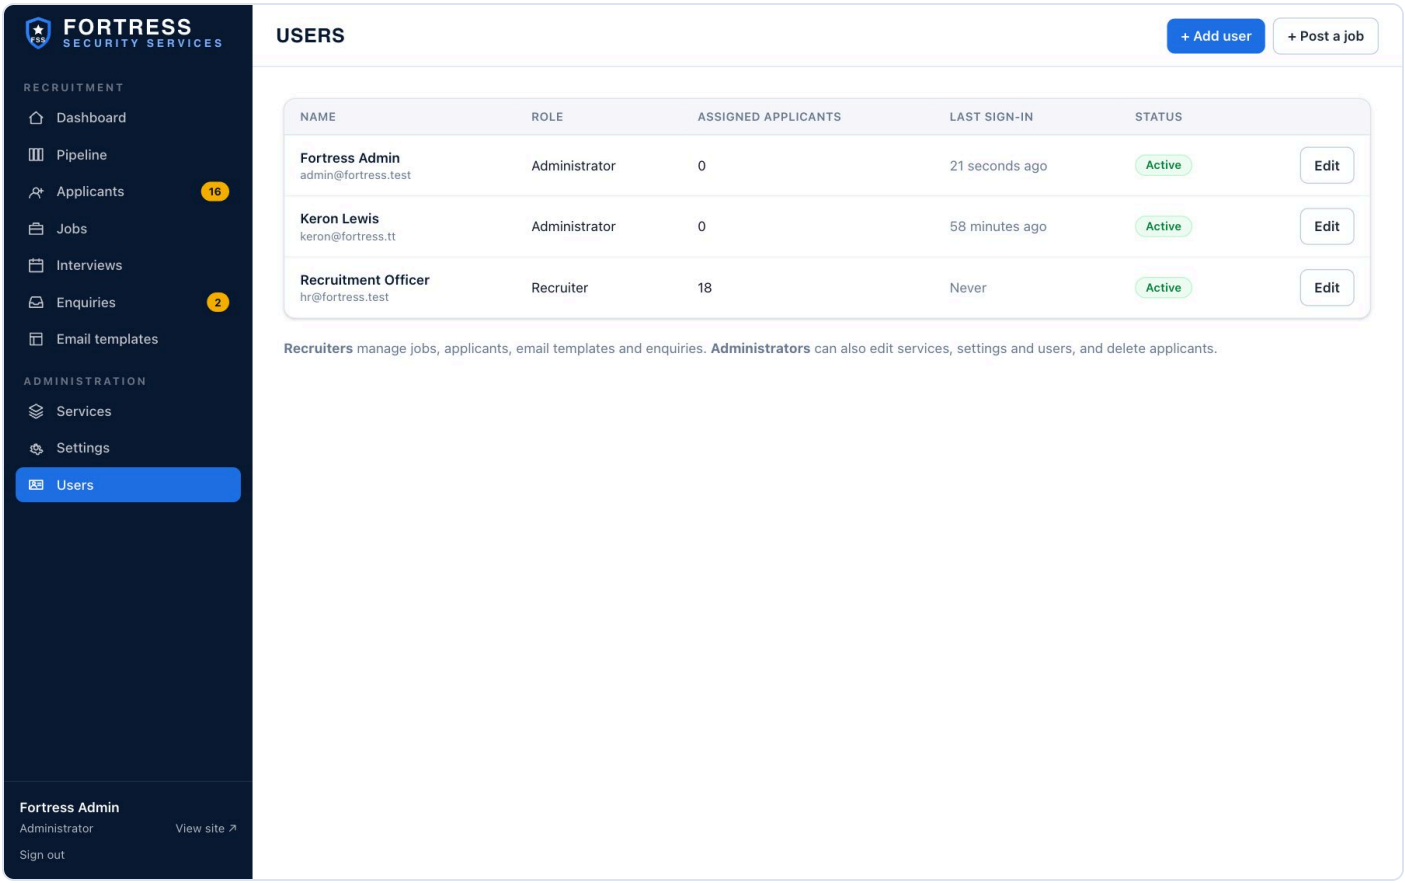

Sections shown: Business details · Notifications · Careers page · Social & home page

THE RECRUITMENT & ADMINISTRATION BACK OFFICE

USERS & ROLES

/admin/users

- Add recruiters and administrators, reset passwords, deactivate leavers.

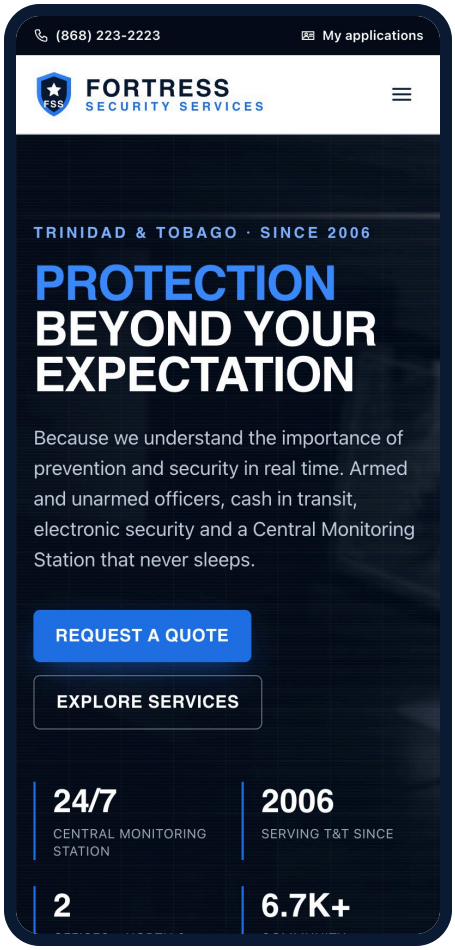

Staff users with roles, assigned applicants, last sign-in and active state.

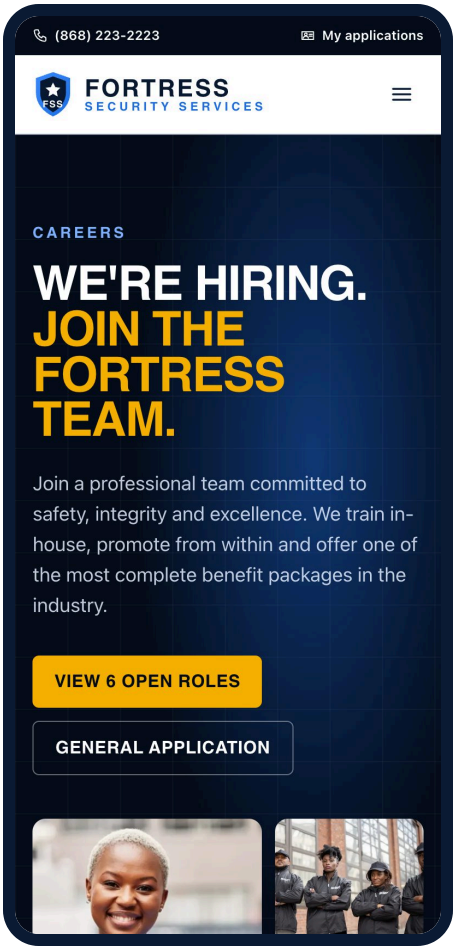

RESPONSIVE DESIGN

BUILT FOR PHONES FIRST

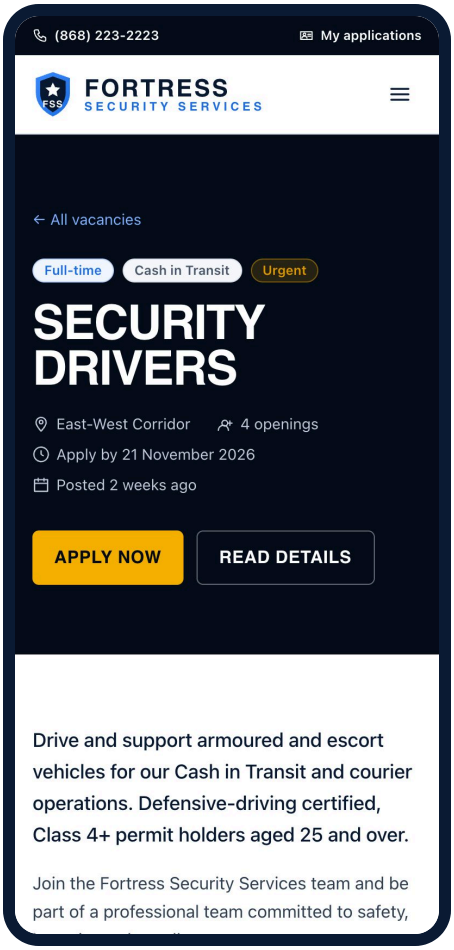

Most candidates will apply from a phone, often from a Facebook link. Every public page adapts to small screens: the hero, service cards, vacancies and the application form.

RESPONSIVE DESIGN · CONTINUED

PORTAL AND BACK OFFICE ON A PHONE

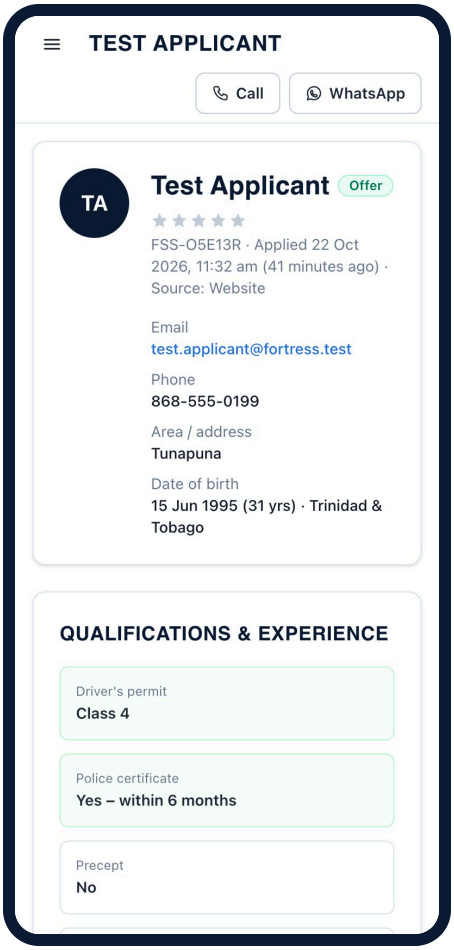

Recruiters can work the pipeline and review applicants from the field, and candidates manage everything from their phone.

Applicant portal

Pipeline (staff)

Applicant profile (staff)

TECHNOLOGY, HOSTING & SECURITY

BUILT TO RUN ON WHAT YOU HAVE

PLATFORM

- Laravel 13 (PHP 8.3), MySQL – the most widely supported PHP stack
- Packaged for Hostinger shared hosting: upload one zip, run a guided installer
- No background workers or extra services required
- Automated test suite (53 tests) protects every feature

SECURITY & PRIVACY

- HTTPS enforced; forms rate-limited and spam-protected
- CVs stored outside the public web folder, downloadable only by signed-in staff
- Separate staff and applicant logins with role-based permissions
- Candidate consent captured; privacy policy page included

PERFORMANCE & REACH

- Optimised WebP imagery (all photos under 2 MB combined) and a 0.7 MB video loop
- Reduced-motion and data-saver aware
- Sitemap, Open Graph and Google for Jobs structured data
- Phone-width layouts tested on every page

OWNERSHIP

- All content, vacancies, templates and settings editable in the back office
- Admin seeding and documented installation guide
- Source code delivered with the project
- Facebook hiring posts simply link to fortress.tt/careers

EMAIL NOTIFICATIONS INCLUDED

Application received (candidate), new applicant alert (recruitment inbox), application in review, invited to interview, interview scheduled / booked, accepted, not successful, recruiter messages from templates, quote-enquiry alert (operations inbox) and applicant password reset – all branded and sent from your Hostinger mailbox.

NEXT STEPS

FROM PROPOSAL TO LAUNCH

1. **Review this proposal** and the working demo together; agree on any changes to pages, wording or workflow.
2. **Content sign-off:** confirm services copy, offices, contact details and the vacancies to publish at launch. Supply Fortress photography if preferred over the licensed imagery.
3. **Hosting:** point fortress.tt at the Hostinger plan, install the free SSL certificate and create the recruitment@ and support@ mailboxes (or confirm the existing ones).
4. **Install and configure:** upload the package, run the installer, create administrator and recruiter accounts, set notification addresses and interview locations.
5. **Training (one session):** posting jobs, working the pipeline, publishing interview slots, sending templated emails, editing site content.
6. **Launch:** switch the domain, submit the sitemap to Google, and update the Facebook "We're hiring" posts to link to fortress.tt/careers.
7. **After launch:** monthly check-ins on applicant volumes and content updates; optional additions such as WhatsApp notifications, SMS interview reminders or a client portal for GPS/alarm customers.
